COMMUNITY RENEWAL LIFTING NEIGHBOURHOODS TOGETHER

BINGHAM, MAGDALENE & THE HAYS

The Hays Community Pantry - Covid Safety Measures

As you will already know, shops have put in place Covid-19 safety measures to help stop the transmission of the virus and keep everyone as safe as possible. In the pantry, we will be no different. To give you some piece of mind we thought we would outline what to expect regarding measures during this time.

All staff and volunteers will be trained in health and safety procedures to minimise the spread of Covid-19 including the cleaning of surfaces before you enter the building. Staff will be wearing personal protective equipment including masks/visors and gloves.

We encourage you to:

- Shop alone, one person per family wherever possible.
- Bring your own bags as they are not supplied by the pantry.
- Only attend if you are well. If you are experiencing any Covid symptoms: new persistent cough, high temperature, loss of taste/smell, then please come back when you are well.
- Keep to 2 metre social distancing rules. Markings will be used in and outside the building.
- Wear a mask, we can provide one for anyone who does not have one. Those without a mask without medical grounds will be unfortunately turned away.
- Have your temperature taken: our staff will take your temperature before you enter the building.
- Use our safety station to sanitise your hands when you come in the building.
- Check-in Scotland via our QR code on your phone whilst visiting our store. This is a mandatory step introduced by the government regarding test and trace in venues. If you are unsure how to do this or don't have a smart phone, our friendly staff can help you with this.
- Ask one of our staff to help bag any products you wish to purchase.
- Speak to our staff if you need support in other areas including money or benefit issues, mental or physical health support, practical support regarding employment or if you want to get more involved in local community activities.
- Toilets will be unavailable for use
